AESTHETIC vs PERFORMANCE

Who says you can't have both?

2.5" Solid State Disk

V60 SSD

60GB / 120GB / 240GB / 480GB

Silent · Power Save · Shockproof · 3.5" Bracket for DT

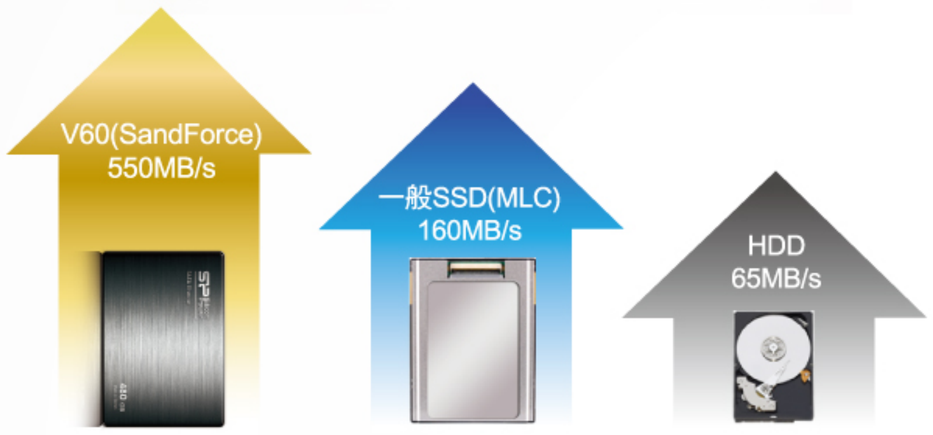
Combines Aesthetic and Performance

Unlike a traditional SSD that is rigid and bulky, Velox V60 offers a stylish brushed aluminum enclosure in metallic gray. It features a hairline finished cover with a silver embossed diamond cut logo and a body with curved edges. Consumers will never need to compromise aesthetic for performance.



SATA III Tremendous Performance Improvement

Featuring the latest SandForce controller, Velox V60 unleashes the potential of SATA III 6Gbps interface to deliver up to 550MB/s reads; 500MB/s write transfer rate. It is faster than other SSD and HDD. The Velox V60 can significantly improve performance over hard drive; it can boot a computer in seconds and quickly launch applications.

Stability and Durability Enhancement

The Velox V60 is more reliable and durable than a hard drive. It contains no moving parts, making it more resistant to shock and vibration. Weighing only 64 gram, the Velox V60 is one of the lightest of its kind and generates less heat and noise, making it an ideal solution for notebook users on the go.

Features

- Brushed aluminum metal body with metallic gray finish
- SATA III 6Gbps backwards compatible with SATA II 3Gbps
- Super-high transfer rate：550MB/s max. read speed
  500MB/s max. write speed
- Supports TRIM command and Garbage Collection technology
- NCQ and RAID ready
- Equipped with DuraWrite™ and wear leveling, to extend endurance
- Implement with ECC technology to guarantee data transmission reliability
- Built-in with SMART monitoring system
- Low power consumption
- Shock & Vibration-proof
- Noiseless operation, no latency delay and no seek error
- 3 year warranty

Specifications

- Capacity：60GB/120GB/240GB/480GB
- Dimensions：100mm x 69.85mm x 9.4mm
- Weight：64g - 77g
- Vibration Resistance Test: 20G
- Shock Resistance Test：1500G Max
- Complimentary 3.5" Adapter Bracket

* Transfer rates may vary, depending on system platform.
